

ALAN JOSEPH MONICHAN

Data Analyst | BI Developer | SQL & Python Specialist

+91 6282485160 | alanmonichan122@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Results-driven **Data Analyst** with 1+ years of hands-on experience in **Power BI, SQL, Python, and ETL pipelines**. Delivered **Business Intelligence solutions for Tata Motors** and led data analytics workshops for the **Government of Goa**. Skilled at transforming complex datasets into actionable dashboards and predictive models that drive data-informed decision-making.

TECHNICAL SKILLS

Data Visualization: Power BI (Advanced DAX), Tableau, Google Looker Studio, Matplotlib, Seaborn
Data Processing: SQL (PostgreSQL, MySQL), Python (Pandas, NumPy), Excel (Pivot Tables, Power Query)
Statistical Analysis: Predictive Modeling, Regression Analysis, Hypothesis Testing, EDA, NLP
Tools & Workflow: ETL Pipelines, Git, Docker, Agile/Scrum, REST APIs, Firebase

PROFESSIONAL EXPERIENCE

Junior Project Assistant — (CSD, NITK Surathkal)

Jun 2025 - Present

- Engineered **Power BI** reporting solutions for **Tata Motors**, automating ETL workflows and significantly reducing manual reporting overhead.
- Developed interactive data visualizations using Three.js, improving stakeholder metric interpretability and decision-making efficiency.
- Acted as Resource Person for **Govt. of Goa (ALP)**, building a Power BI dashboard for NAAC-AISHE analytics and leading workshops for **50+ senior officials**.

Virtual Lab Development Intern — (NITK Surathkal)

Jan 2025 - Mar 2025

- Developed **Python** automation scripts to generate synthetic datasets, substantially reducing manual testing time.
- Integrated real-time feedback loops to visualize student engagement KPIs and performance metrics, improving reporting accuracy.

KEY ANALYTICS PROJECTS

Goa Higher Education Dashboard | *Power BI, Python, SQL*

[GitHub](#)

- Cleaned and processed state-level AISHE datasets; built interactive dashboards visualizing Gross Enrollment Ratios and institutional metrics for government use.

BMW Parts Inventory System | *Power BI, SQL, Excel*

[GitHub](#)

- Designed a relational SQL database and Power BI dashboard featuring **predictive stock alerts**, supplier scorecards, and demand forecasting insights.

Air Quality Analysis | *Python, Pandas, Matplotlib, Seaborn*

[GitHub](#)

- Analyzed air pollution trends across **195 cities** using Python and Pandas; identified seasonal pollution hotspots and pollutant correlations from data.gov.in.
- Delivered data-driven insights for targeted environmental interventions using EDA and statistical analysis.

Sales Performance Dashboard | *Power BI, Advanced DAX, SQL*

- Built a KPI tracking system for revenue forecasting using Advanced DAX measures, improving regional resource allocation and operational efficiency.

HR Employee Analytics Dashboard | *Power BI, Excel*

- Designed executive dashboard analyzing attrition rates, workforce KPIs, and diversity metrics using drill-through filtering and Advanced DAX.

PROFESSIONAL CERTIFICATIONS

Data Analytics Certification — *Entri Elevate (Illinois Tech & NSDC Partnered)*

- Comprehensive training in data analysis, SQL, visualization, and real-world business case studies.

Data Analyst Career Path — *Power BI, Data Modeling, DAX*

- Power BI dashboard development, data modeling, and Advanced DAX for business intelligence.

Python for Data Science — *NPTEL* | **Introduction to Data Analytics** — *Simplilearn*

- Applied Python for data cleaning, exploratory data analysis (EDA), and visualization using industry-standard tools.

EDUCATION

Master of Computer Applications (MCA) — Mahatma Gandhi (MG) University

2023 - 2025

Bachelor of Computer Applications (BCA) — Kannur University

2020 - 2023
